

BARBARA BONTEMPO

EXPERIENCE

Datadog, New York, New York

Majors Technical Account Manager 3 Feb 2025 - Present

- Manage a \$2.4M MRR / \$28.9M ARR book of business across Fortune 500 accounts including UnitedHealth Group (\$1.24M MRR) and Toyota Motor North America, driving 73% and 119% MRR growth respectively over two years through health checks, performance reviews, and strategic optimization.
- Drove strong account outcomes that led each organization to expand their TAM investment upon renewal, with accounts adding dedicated TAM headcount to their contracts.
- Mentor new TAM team members on technical and soft skills; participate in team knowledge-sharing events to influence ways of working across the team.
- Created playbooks and enablement resources for other TAMs, accelerating onboarding and standardizing best practices across the team.

Technical Account Manager 2 Sep 2023 - Feb 2025

- Successfully closed the first TAM contract in the LATAM region, securing a \$140,000 deal through effective pre-sales initiatives including thorough Datadog demos.
- Supported the largest Brazilian customer in their comprehensive migration to Datadog, leading enablement sessions and implementing best practices, to ensure seamless adoption in Portuguese. Also facilitated cost reduction strategies, resulting in a significant increase in Datadog usage from \$128k to \$374k, nearly tripling their investment.
- Provided dedicated support to major North American accounts (650k+ MRR), by conducting regular health checks and performance reviews, identifying opportunities for cost savings and optimization, leading to enhanced customer satisfaction and retention.
- Bridged the gap between Product Managers and customer teams, ensuring that customer feedback and advanced needs influenced the product roadmap and development priorities.

Senior Solutions Engineer - APM Jan 2023 - August 2023

- Built virtual sandboxes where APM was enabled with the most popular customer stacks to make troubleshooting APM issues more efficient.
- Consistently depleted 80+ APM customer tickets per month by offering various troubleshooting calls and providing detailed emails with thorough troubleshooting steps and work arounds.
- Lead various APM enablement sessions and office hours to assist other solution engineers with their APM tickets.

Solutions Engineer Mar 2021 - Jan 2023

- Supported customers through tickets, live chat sessions, and troubleshooting calls.
- Led demos to prospective customers leading to closed \$400k deals annually.

EDUCATION

New York University - B.A., Public Policy · GPA 3.9

Flatiron School - Web Developer Bootcamp

SKILLS

Certifications:

Datadog: [Fundamentals](#),
[Logs Management](#), [APM](#)

Observability:

APM & distributed tracing ·
OpenTelemetry / OTLP · sampling
& ingestion optimization · RUM &
Session Replay · Log Management
(indexing vs. ingestion, exclusion
filters, Flex Logs) · Database
Monitoring · Infrastructure &
Kubernetes · NDM/SNMP ·
Synthetics · Data Streams
Monitoring (Kafka) · Cloud Cost
Management · CI Visibility · Event
Management · Workflow
Automation · LLM Observability

Technical:

Terraform / Infrastructure-as-Code
· cost & usage optimization /
chargeback modeling · SQL
(PostgreSQL) · REST APIs & JSON
· JavaScript · Ruby / Ruby on Rails
· AWS / Azure / GCP · Docker &
Kubernetes

Tools:

Salesforce · Zendesk · Jira ·
Confluence · ServiceNow ·
PagerDuty

Customer-Facing:

Discovery calls · feature-request
evaluation · SaaS product demos ·
technical troubleshooting ·
executive QBRs · enablement &
mentorship
